

Discover Advanced Cybersecurity Solutions with Clouds Dubai at GISEC 2025

May 5, 2025

GISEC 2025 – Stand No. P17, Hall 8, Dubai World Trade Centre, May 06–08

We are excited to announce our participation in **GISEC 2025**, the Middle East's premier cybersecurity exhibition, held at the Dubai World Trade Centre. Visit Clouds Dubai at GISEC 2025 Stand P17, Hall 8, where we will exhibit alongside our strategic technology partners **Libraesva** and **WALLIX**.

Our team of cybersecurity consultants will be available on-site at GISEC 2025 to demonstrate cutting-edge solutions designed to address the most critical security challenges facing modern organizations. From robust email protection to advanced privileged access control, we invite you to explore how our solutions can help secure your digital infrastructure.

For more information about our stand, please visit <https://exhibitors.gisec.ae/gisec-global-2025/Exhibitor/ExbDetails/clouds-tech-fze>

Libraesva – Comprehensive Email Security That Goes Beyond the Gateway

Protecting Communications. Preserving Trust. Ensuring Compliance.

Email remains the most commonly exploited attack vector in today's evolving cyber threats. Libraesva delivers a complete suite of email security solutions that go beyond traditional filters to proactively defend against phishing, malware, spoofing, BEC attacks, and impersonation.

Libraesva Email Security:- A next-generation integrated email security platform that offers multi-layered protection across Microsoft 365, Google Workspace, and Exchange environments. It provides both Gateway-level and API-based defences, ensuring real-time threat detection and response, all from a unified platform that reduces complexity and boosts resilience.

Libraesva Email Archiver:- Ensure long-term accessibility, compliance, and integrity of your organization's email communications with this powerful archiving solution. It creates 1:1 copies of all messages, regardless of the email server (cloud or on-premises), with native integration into Office 365 and Exchange. The intuitive Outlook Add-In ensures users can retrieve archived emails effortlessly from both Windows and Mac platforms.

Libraesva PhishBrain:- Empower your employees to recognize and respond to phishing attempts through this easy-to-use and highly effective phishing simulation and training platform. PhishBrain helps reduce your organization's attack surface by building a security-aware culture.

Libraesva LetsDMARC:- Achieve complete visibility and control over your email domain with LetsDMARC, a comprehensive DMARC management and reporting tool that enhances deliverability and protects your email reputation.

WALLIX – The Future of Privileged Access Management for IT & OT Environments

Securing Identities. Enabling Access. Empowering Compliance.

As organizations embrace digital transformation, the need to secure privileged accounts — those with elevated access to critical systems — has never been more vital. WALLIX, a global leader in

Privileged Access Management (PAM), delivers simple yet powerful tools to protect sensitive systems from unauthorized access, misuse, and cyberattacks.

WALLIX Bastion – PAM Made Simple

WALLIX Bastion offers centralized control over privileged credentials, session monitoring, and access workflows. Whether for administrators, third-party vendors, or automated processes, WALLIX ensures that only authorized users gain access, and only when they need it. The solution is easy to deploy, intuitive to manage, and trusted by enterprises worldwide.

WALLIX PAM4OT – Industrial-Grade Access Control

WALLIX PAM4OT is a specialized solution crafted for Operational Technology (OT) and Industrial Control Systems (ICS). It helps critical industries such as manufacturing, energy, and transportation comply with standards like ISA/IEC 62443 and NIST SP800-82. Key capabilities include secure remote access, strong multi-factor authentication, just-in-time access, and comprehensive session recording, all designed to minimize cyber risk while enabling operational efficiency.

Recognized by analysts like Gartner and Frost & Sullivan for its cost-effectiveness, simplicity, and feature-rich architecture, WALLIX continues to lead in the PAM space.
